Art Unit: 1724

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-4 and 6 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. The limitation that the filtration tank includes an upper filter "plate" (claim 1, lines 2-4, 18, 21, 26 and 28; claim 3, line 2; claim 4, line 3; and claim 6, lines 4-5) does not appear to be supported by the disclosure originally filed, and hence constitutes **new matter**. Applicant should note that the specification only provides basis for the limitation that lower filtration media support member 4 is constructed from "plates" (see page 20, lines 25-26); upper filtration media support member 50 appears to be constructed from "wire mesh" (see page 22, lines 18-35), not from a plate.

Claims 1-4 and 6 would be allowed if amended to overcome the above rejection under 35 U.S.C. § 112 because the references of record do not teach or fairly suggest a filtration device of the type recited including liquid spraying pipes of the type recited.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1724

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
